PROFESSIONAL SUMMARY

Data Science undergraduate (3rd year, CGPA 8.09) with hands-on experience in Python, SQL, and data analysis through applied job-simulation coursework. Completed a Deloitte Data Analytics Job Simulation covering data analysis, data cleaning, and forensic technology techniques. Self-taught web developer who independently designed and built a full-stack personal portfolio application using HTML, CSS, JavaScript, and a Node.js/Express backend, demonstrating initiative and the ability to learn and ship technical projects independently. Seeking an entry-level Data Analyst / Data Science internship to apply statistical analysis and data visualization skills to real-world business problems.

EDUCATION

B.Tech in Data Science — Nagarjuna College of Engineering and Technology, Bangalore Expected 2027
Currently in 3rd year | CGPA: 8.09 / 10

TECHNICAL SKILLS

- Programming Languages: Python, Java, C, SQL
- Data Skills: Data Analysis, Data Cleaning, Statistical Analysis, Data Handling, Querying & Database Fundamentals
- Web Development: HTML, CSS, JavaScript, Node.js, Express.js (REST API basics)
- Tools & Concepts: Git version control, Database Fundamentals, Forensic Technology (applied, via Deloitte simulation)

CERTIFICATIONS

Data Analytics Job Simulation — Deloitte (via Forage) 2026

- Completed practical, job-simulated tasks in data analysis and forensic technology, replicating real Deloitte analyst workflows.

Cisco Networking Essentials — Cisco Networking Academy 2026

- Built foundational knowledge of networking concepts and database/data-infrastructure fundamentals relevant to data-driven systems.

PROJECTS

Personal Portfolio Website — Full-Stack Web Application 2026

- Independently designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript, implementing a minimalist UI with custom scroll-driven animations.
- Built a Node.js and Express.js backend with a REST API endpoint that dynamically reads and serves certificate files from the server's file system, eliminating manual front-end updates.
- Deployed live on Render with continuous deployment from GitHub.

Yuvi Nature Products — Business Website 2026

- Designed and built a responsive business website for an eco-friendly arecanut leaf plate manufacturer, including a product catalog and WhatsApp-integrated enquiry form.
- Deployed live on Netlify.

Blinkit Sales Dashboard — Power BI 2026

- Built an interactive Power BI dashboard analyzing sales, orders, and outlet performance across regions and categories using Excel data sources.
